

The background of the image is composed of large, overlapping geometric shapes in vibrant colors: a large pink circle on the right, a large orange shape on the left, and a smaller purple shape at the bottom right.

BREAST CANCER

NOW The research &
support charity

WE'RE HERE

We're Breast Cancer Now, the research and support charity. However you're experiencing breast cancer, we're here.

We're a dedicated team of researchers, campaigners, supporters, healthcare professionals and staff.

We're powered by life-saving research and life-changing support. And we're driven by an ambitious goal. That by 2050, everyone diagnosed with breast cancer will live, and be supported to live well.

But we can't do it alone. Will you join us?

LIFE-SAVING RESEARCH

We support over 290 of the brightest minds in breast cancer research.

They're discovering how to prevent breast cancer, live well with the disease, and save lives. Every day, they get closer to the next breakthrough.

To date, we've invested over £268 million in world-class research. In 2021, our research led to around 200 scientific discoveries. But we're not stopping yet.

breastcancer.org/ourresearch

LIFE-CHANGING SUPPORT

Whoever you are, and whatever your experience of breast cancer, our free services are here.

Whether you're worried about breast cancer, dealing with a diagnosis, working out life with or beyond treatment – or someone you love is.

It might be a 20-minute phone call with one of our nurses. Or it might be a course with other people who understand what you're going through. Whatever you need, we're here for you. And we always will be.

Get support today at

breastcancer.org/oursupport

What we do is only possible with your support. Find out how you can get involved at breastcancer.org

IN THE UK

Every 10 minutes, someone is diagnosed with breast cancer.

That's around 55,000 women and 400 men every year.

Breast cancer is the most common cancer.

1 in 7 women will develop the disease in their lifetime.

1,000 people die from the disease every month.

And it's estimated that over 61,000 people are living with incurable secondary breast cancer.

BY 2050, WE BELIEVE
EVERYONE DIAGNOSED
WITH BREAST CANCER
WILL LIVE – AND
BE SUPPORTED TO
LIVE WELL.

BUT WE NEED TO
ACT NOW.
