

DO YOU WANT TO RAISE AWARENESS OF BREAST CANCER?

We offer **Public Health talks** online and in person, which cover important information on breast cancer, including:

- Breast cancer facts and figures
- Breast awareness and the importance of early detection
- Signs and symptoms of breast cancer
- Causes of breast cancer and how you can help reduce your risk
- Myths and misconceptions

If you'd like to book a free Public Health talk in your workplace or community, we'd love to hear from you.
